

Yearly Report 2020

PharmacoEpidemiology and Drug Safety Research group (PharmaSafe)
Section for Pharmaceutics and Social Pharmacy
Department of Pharmacy
Faculty of Mathematics and Natural Sciences
University of Oslo

In PharmaSafe, our priority research areas are:

Pharmacoepidemiology,
E-health, Health
registry-based research

Social and clinical
pharmacy

Key numbers 2020:

- 34 international publications
- 13 posters
- 6 oral presentations/external lectures
- > 50 media coverages
- 4 visits from international guest lecturers
- 7 research grants awarded > 10 million NOK in total

Key numbers 2019: 31 international publications, 10 national scientific publications/guidelines, 20 posters, 18 international presentations, 15 national presentations/external lectures, 39 media coverages, 4 visits from international guest lecturers, 6 PhD defense committees as international member.

Key numbers 2018: 32 international publications, 11 national publications, 25 posters, 17 international presentations, 23 national presentations/external lectures, 22 media coverages, 7 visits from international guest lecturers.

Key numbers 2017: 39 international publications, 11 national publications, 30 posters, 44 oral presentations/external lectures, 13 media coverages, 6 visits from international guest lecturers

International publications

1. A systematic review of the use of simulated patient methodology in pharmacy practice research from 2006 to 2016. **Björnsdóttir I, Granas AG**, Bradley A, Norris P. *Int J Pharm Pract.* 2020 February; 28; (1):13-25. Epub. PMID: 31397533.
