Dato: 25. november 2020

IS SIRK 4/20 Bedømmelseskomité for stilling som førsteamanuensis CCSE

CCSE fremmer forslag om bedømmelseskomité ifm. utlyst 1. aman.-stilling innen Physics Education Research. Søknadsfristen for stillingen var 23. september, og totalt 9 søkere har søkt stillingen.

Nedenforstående personer er forespurt om å være medlemmer av den sakkyndige komiteen for stillingen. De har alle bekreftet at de aksepterer å sitte i den sakkyndige komiteen.

1. **Prof. Cedric Linder**, Department of Physics and Astronomy, Uppsala University.
2. **Associate Prof. Magnus Strøm Kahrs**, Vice Dean, the Department of Physics, NTNU
3. **Associate Prof. Nina F. J. Edin**, Fysisk institutt, Seksjon for biofysikk og medisinsk fysikk (administrativ leder av komiteen)

Alle tre foreslåtte medlemmer er sjekket mht. habilitet.

Når det gjelder mer detaljert info om de foreslåtte kandidatene, så henvises det til vedlagte CVer.

Begrunnelse for valg av de eksterne medlemmene:

Cedric Linder is professor of Physics Education Research (PER) at Department of Physics and Astronomy, Uppsala University. He has long had a leading role within PER in Scandinavia and has recently worked with how physics students in higher education use digital learning environments as well as with the role of representations (including graphs, mathematics, language etc) in physics learning.

Magnus Strøm Kahrs is associate professor and vice dean for professional studies at the Department of Physics, NTNU, where he currently works with building up the physics education research activity. He has worked with improving the teaching and learning environment at NTNU and he has also done research for instance related to physics and engineering students' use of peer learning and response technology in higher education in physics and related subjects.

Kunngjøringstekst for stillingen er vedlagt.

Med vennlig hilsen,

Lars Bernhardsen
Adm. leder
