

ANNOUNCEMENT

Evy Glørstad-Clark at the Department of Geosciences will

Friday 1 April, 10.15
in Auditorium 1, the Geology building

give a trial lecture on the following topic:

Deep marine sedimentation - processes and depositional architecture

Friday 1 April, 13.15
in Auditorium 1, the Geology building

the doctoral candidate will defend her dissertation:

**Basin analysis in the western Barents Sea area: The interplay between
accommodation space and depositional systems**

for the degree of Ph.D.

To judge the dissertation and the disputation the Faculty appointed the following committee:

**Professor Joseph A. Cartwright, Cardiff University, School of Earth and
Ocean Sciences**

Professor Snorre Olaussen, The University Center in Svalbard (UNIS)

Professor Annik M. Myhre, University of Oslo, Department of Geosciences

Professor Joe Cartwright and Professor Snorre Olaussen are appointed to serve as opponents and Professor Nils Roar Sælthun will chair the disputation.

Nils Roar Sælthun
Head of Department
